This planning application appears to be identical to the previous application which was outright refused, therefore our concerns remain the same. The tree would have roots cut through to form the driveway, which would potentially make it unsafe or destroy it altogether. Secondly, the turning circle on Osborne Terrace needs to be maintained and cannot be closed off as all residents of the terrace have a right to access. Also, having read all the details and reports from the various contributors of the previously rejected application, we now appreciate the significant impact of such a large extension which may have an adverse effect so many thanks for highlighting this.
