

28 NOV 2019

Application No. 2019/92238
Land at Westfield Farm,
Barnsley Road,
Flockton.

Nov. 27th 2019

Dear Sarah,

Further to our telephone conversation of 26/11/19, we confirm that it was agreed that all references in text/plans etc. to the existence of the non-existent access to "paddock" would be removed prior to the presentation of the application at the decision making meeting.

As agreed, our correspondence, including that which we forward now, will be placed on the website and file. Also that to and from [redacted] would be so retained (we understand that his letter to us could be on the website but his to you would only be on file).

We enclose the following:

- ① letter dated 23 July 2019 from [redacted] design to [redacted]
- ② email dated 23 July 2019 from [redacted] to Sarah Langbottom
- ③ letter dated August 6th 2019 from [redacted] to the
Planning, investment and regeneration service

In conclusion, we trust that the claimed existence of the non-existent gateway is now erased. We finally note that there is no evidence that such a gateway ever existed!

Yours sincerely,

Please confirm that this correspondence has been received.
