<p>I feel I have to object to this application as I have great concerns, not regarding the building but the parking facilities. Six apartments with only six parking bays. No doubt there is a possibility that an apartment purchaser might have more than one car, will they be expecting to park in the road? Twice this week I have had to reverse back up Church Lane to enable buses to come up the hill, the road narrows by the chapel and already there are cars parking in the roadside. My concern is where will additional cars park in this overcrowded area, bearing in mind this is an area where children walk to school. Therefore, I am objecting to the impact on Church Lane that additional vehicles will have.</p>
