<p>We were unaware that an application had been made in regard to this property and certainly we have not seen any planning notices displayed. As work has commenced this led to me search.</p> <p>Conversion to multiple occupancy apartments and the proposed parking spaces are inadequate. In Cliffe street we already have cars parked from residents of church lane and chapel hill often at both sides of Cliffe street impacting on our safety of entrance and exit.</p> <p>If the parking space issue is not addressed it is likely to push more none resident parking up Cliffe street which already seems at its maximum particularly the narrower areas higher up.</p> <p>These concerns are further exacerbated during icy or wet conditions with the steep gradient of Cliffe street.</p> <p>Further parking on the wide pavement in front of the council bungalows already impact on safety issues with individuals parking right on the road edge and right up to Cliffe Street exit and entrance.</p> <p>I cannot see how this development Will not detrimentally impact on road safety issues as one vehicle parked outside the church already causes traffic issues due to the blind summit issues.</p>
