<p>We are happier that the plans have been amended to remove the addition of the windows to the upper floor at the rear elevation, , and also the provision of obscured glass to the side elevation.</p> <p>The noise of the bins and vehicles , as well as fumes from the cars remains a significant concern. Exhaust fumes will come straight into . This has been exacerbated by the increased parking spaces and turning circle now provided in the amended plans.</p> <p>In order to minimize the impact of odours, fumes and noise from bins and cars, we would request that a solid fence be erected .</p> <p>In our opinion the layout of the apartments seems strange and unappealing, having the kitchen and living areas at the rear and bedrooms at the front - it would seem more appropriate if the layout was the other way around, with living quarters at the front and bedrooms to the rear. This would also be potentially quieter for us in Vinery Close, as we are still concerned about excess noise from so many dwellings</p>
