
Dear Ms Chippendale

Re ABOVE PLANNING APPLICATION

Having talked to my neighbours who tell me they are assured about their worries re boundaries and parking. Consequently I now voice my approval of the conversion of the Chapel . I was told by the Developer that there would be 11 parking places and that a solution to the Church Lane/Chapel Hill traffic speed limit is to be implemented asap (what about a speed bump at the Victoria Street junction?)

We are glad that the Chapel is not going to wrack and ruin and Nest Egg Developers do seem to care.

Kind regards
