Dear Sir/Madam

Re application no: 2019/62/93617/E

I am writing re the proposed dwelling which has been submitted for planning in the grounds of Liversedge Hall.

Having lived on Liversedge Hall Lane and after viewing the proposed planning application I fully support this application as it can only enhance the local community and will have no impact on the residential area.

The proposed bungalow seems well designed and is not only discrete but it also sits comfortably next to the two existing detached houses already in the grounds and has no impact on the existing Liversedge Hall.

The plan will allow Liversedge Hall to retain its original features and allow the family to remain close together.

I fully support this application

Yours sincerely
