

This architectural elevation drawing shows a single-story house with a dark grey gabled roof. A small rectangular skylight is centered on the roof. On the right side, a tall, light-colored chimney with horizontal siding rises above the roofline. The main facade features a large, arched window with a tan frame and a four-pane grid. To the right of this is a small, square window with a tan frame. Further right is a bay window with a tan frame, consisting of two rows of three vertical panes each. A set of stairs leads up to the bay window. On the far left, a small, square window with a tan frame is visible. The house is set on a white ground plane, and a dashed line indicates the foundation level.

Proposed West Elevation drawing of the building. The drawing shows a two-story structure with a dark grey roof. A red dashed line indicates the 'EXISTING ROOF LINE' and 'EXISTING EAVES LINE'. The building features several windows: two on the left side, two in the center, and one on the right side. A small, light-colored structure is visible on the right side of the building. The drawing is labeled 'PROPOSED WEST ELEVATION' at the bottom.
