<p>we are concerned about the reduction of natural day light into our house. lack of visual amenity.</p> <p>The area is already overdeveloped, that already has massive highway problems, particular in the lack of on street parking, loading areas and turning area. there is very young children on the street that play out frequently with a overpopulated amount of cars coming and going very often which causes a lot of air pollution and road safety concerns and feel this will restrict road access / use even further when it is horrendous already.</p> <p>Trees will have to be cut down for the houses to be built which will contribute towards the carbon footprint.</p>
