To whom it may concern,

As the owner of St Paul's Road, Mirfield I am writing to object to the above planning application.

I do think that building these apartments which will not be built in a style sympathetic to the surrounding housing will only add to the already traffic and parking problems that already exist on St Paul's Road.

A number of attempts to ease the traffic flow have already been put in place , firstly traffic lights at the junction and then later making the road a one way street. Neither of these have been hugely successful . To add extra housing and insufficient parking can only increase the existing problems.

A two storey building would cut the light from the properties opposite and reduce the privacy of the occupants . I hope this objection along with the many others will show the strength of feeling of the local residents and the council will consider them sympathetically.

Regards
