Postcode:	LS8 4HS

## User comments

Type of comment: An objection
<p>To whom it may concern, I live across from where the old council buildings are looking at being demolished,I am writing to object to the above planning application.</p> <p>1. the apartments that are to be built will not fit in with the surrounding properties that have been here for many years 2.the added traffic travelling on the road will I think will only add to the already traffic and parking problems we already have which is quite dangerous already 3. we have fought as residents to ease the flow of the traffic as it was getting that bad people were mounting the pavements to drive along them to get to their destination nearly causing accidents as we walked out of our gates, we are still having problems with people coming down the road the wrong way even through the road has been narrowed at the top these are still big issues 4.To add extra housing and insufficient parking can only increase the existing problems. 5.adding a two storey building across will also reduce the light into our propeties as well as reducing our privacy as people will be able to look straight into our houses</p> <p>.</p> <p>I hope this objection shows my concerns with the above application for planning which is a feeling of a lot of residents on this road. Regards</p>
