FAO Emma Thompson please

I am emailing in reference to the planning application from the vineyard in Holmbridge, Holmfirth for extending their licensing hours.

I would like to object to this application due to the noise that we can already hear up to and sometimes over 11pm at night -

can hear the music most nights when they have events on, so goodness knows what it is like for those living closer- to be allowed to play music up to 1am (and to be honest they already go past 11pm so what's to stop them not stopping at 1am?) will be disturbing and horrendous for all locals near and far to the vineyard.

They also want to add to the days that they can host events - the road up to the vineyard is not suitable and the mess that is left around their buildings is already disgusting - their dustbins quite often spill rubbish out near their accommodation block and cars park on the road side making it difficult for cars and tractors to get past. Extra nights will just make it even worse.

The facility was first put forward as a vineyard and wine tasting facility which was a great tourist focus but it just seems the owners dont care about their neighbours and the rest of the village just their own financial gain
