The proposed site is close to residential areas which are likely to experience odour from the proposed store . The addition of cars lining up to access the facility will create traffic problems round this busy already congested bit of road. Idling vehicles queing for the store will increase air pollution in an area which is already polluted given its near a main road . The potential for increased litter in the area is very likely. This will have an impact on the landscape . Government guidance on obesity suggests national and local government should be creating the conditions to help people eat healthily and prevent obesity in the first place . Given that the proposed store is a couple of minutes walk to an nursery and infants school and a junior school is about half a mile away makes young children more vulnerable .
