Type of comment: An objection
I have safety concerns, over parking issues the access to the properties and amount of dwellings wishing to be on the development. With the previous application and recent additions of flats in the former working men's club has already caused more vehicles parked on the street and not there parking area assigned out front. There already are various cars, a large transit van parking on the street blocking access to driveways, making it more difficult and risky to cross safely for children and families. Currently emergency service vehicles would find it challenging to access the back ex bowling green area. would this be corrected if planning permission is granted ?. What's size detached dwellings? Is there room for 8 detached dwellings with parking and drive ways. is facing that area, I don't want to be overlooked or it to have impact on my privacy, home environment and well being. Please take my concerns into consideration when making your decision with the planning application.
