We have already emailed in some comments, but I would also add:-

1. As to the height of the fencing . The FA has now issued guidance as to non heading of the ball for primary school children and children under 16 and 18. Also the FA says heading the ball is rare in youth matches. My point is the need for high ball kicking is now minimal and so if there is to be fencing, which we oppose, the height proposed of over 4 metres is far too high and overbearing. Good cctv and better signage would deter dog walkers from going onto the site at all and deter acts of vandalism thereby minimising the need for any fencing.
2. We support the concerns expressed by others as to the supervision of the site out of hours. Loud swearing coming from the pitch is a concern on evenings. Also the inevitable increase in traffic to an already very busy and noisy Springwood Road is very concerning. The ever increasing new build housing estates such as Redrow on Stoneybank Lane have recently added to this.

Yours faithfully
