I welcome the reopening of a village amenity, but have concerns on the increased restaurant covers, particularly the outdoor area, and would like more consideration given to “where are the increased numbers going to parkl”? one side of the Lane often full of residents' cars - impossible for parking on the opposite side due to lane narrowness. An issue to address. Issue No 2. The effect on residents living opposite the proposed increased outdoor covers - in a Conservation area! Consideration should be given to erecting hedging/fencing, shielding the area - also preventing people climbing over the wall, as has been observed in the past. In days when pubs/restaurants are closing, is it really necessary to make provision for such an increased number of outdoor covers and no additional parking, which I think requires serious consideration in granting such an application.
