

DO NOT SCALE FROM THIS DRAWING
The contractor shall check and verify all dimensions on site and report any discrepancies in writing, before proceeding with work.

FOR ELECTRONIC DATA ISSUE
Electronic data (drawings) are issued as "read only" and should not be interpreted for measurement. All dimensions and levels should be read, only from those values stated in text, on the drawing.

AREA MEASUREMENT

The areas are approximate and can only be verified by a detailed dimensional survey of the completed building. Any decisions to be made on the basis of these proportions, whether as to correct liability, pre-existing, lease agreements or the like, should include due allowance for the inevitable and disclaimers inherent in the design, development and building processes. Figures relate to the latest stage of the building at the current state of the design and shall be the Gross External Area (GEA), Gross Internal Area (GIA), Net Internal Area (NIA) and method of measurement from the Code of Measuring Practice, 2015 edition, (the Code of Practice). All areas are subject to floor planning and construction. Please contact the architect for further details.
