2020/90728 Land at, Queen Street South, Huddersfield
Continuation of existing car park operation for a further temporary period of 3 years
Date Responded: 14/04/20 Responding Officer: J Turner Responding Ref: K5-7SE/16

This application seeks approval for the continuation of an existing car park operation for a further temporary period of five years at Queen Street South, Huddersfield.

This application proposes to maintain a replacement car parking on Queensgate Campus accessed from Queen Street South for 108 car parking spaces to help facilitate the redevelopment of Queensgate Campus by ensuring that the level of car parking at the campus is retained at 690 spaces. The proposed car park mainly replaced the existing car parking spaces within the current Harold Wilson Building car park and a proportion of the recently removed Technology Building Car Park.

The original scheme was granted temporary permission as application no. 2016/91084. A similar application (ref: 2012/44/93093) for 113 parking spaces was also approved in October 2012.

Given this application is simply to extend the length of time the existing facility remains open, Highways DM has no wish to raise objection to the scheme so long as the conditions previously applied have been adhered to.

No additional conditions are deemed necessary.
