

**Consultation Response from KC,
Highways Development Management****2020/90757 New Street, Huddersfield, HD1 2BU****Outline application for erection of 3 sculptural features with a maximum height of 12m****Date Responded: 11/05/20 Responding Officer: J Turner Responding Ref: K1-7NW/3**

This application seeks outline approval for the erection of three sculptural features with a maximum height of 12m on New Street, Huddersfield.

At this outline stage only access and scale are being considered with all other matters reserved.

New Street is one of the main shopping thoroughfares in Huddersfield town centre. All vehicles expect for loading between 4pm and 10am. Given this, the only concerns raised by highways would be the maintenance of access for loading, and the hours of construction and construction access when pedestrian movements are so heavy.

At a full application stage more details would be required in terms of the exact location and dimensions of the proposed sculptural features. However, Highways DM has no wish to raise objection to the scheme at this outline stage.

Please add the following conditions to the decision notice:

Construction access

Prior to construction commencing, a schedule of the means of access to the site for construction traffic shall be submitted to and approved in writing by the LPA. The schedule shall include the point of access for construction traffic, details of the times of use of the access, the routing of construction traffic to and from the site, construction workers parking facilities and the provision, use and retention of adequate wheel washing facilities within the site. Unless otherwise agreed in writing by the LPA, all construction arrangements shall be carried out in accordance with the approved schedule throughout the period of construction.

Footnote;

The granting of planning permission does not authorise the carrying out of works within the highway, for which the written permission of the Council as Highway Authority is required. You are required to consult the Design Engineer (Kirklees Street Scene: 01484 221000) with regard to obtaining this permission and approval of the construction specification. Please also note that the construction of vehicle crossings within the highway is deemed to be major works for the purposes of the New Roads and Street Works Act 1991 (Section 84 and 85). Interference with the highway without such permission is an offence which could lead to prosecution.
