Dear Mr Hirst,

Please accept this message as an objection to the planning application 2020-90757.

As the site is in the Huddersfield town centre conservation area this outline application is bizarre.

Without site, specific size or design being given it is difficult to support this application.

As in current council plans the public realm of New Street is to be redesigned the application is mistimed. Such an ad hoc or piecemeal addition will only add to the clutter.

There are already outdoor seating areas, advertising hoardings, canopies and A boards

It is not possible to assess the appropriateness of the proposed installations, what will be their relationship with listed buildings, street furniture, signage, CCTV?

What materials will the structure be in? What colour?

Will they offer shelter?

Will they be safe; graffiti proof and unclimbable?

The application should be refused.
