<p>Parking at the rear as written in the application would surely be used by the occupants of the dwelling, thus not having that space available. The access road to these spaces is narrow, and regularly has cars parked making this more difficult to comprehend parking in this area. Vehicles did used to park on the front of the property proving dangerous for other traffic users when entering/exiting the area situated outside of the building.</p> <p>Furthermore removing the boarding and placing reflective material on the windows will not improve the visual appeal to the front of the property for passing traffic towards the town centre.</p>
