Address of the site or building:	260-262, Wakefield Road, Earlsheaton, Dewsbury, WF12 8AN
Postcode:	WF12 8AN

## User comments

Type of comment: An objection
<p>This property is situated on a very busy main road, which is a direct link to the M1 and M62 motorways. This road is always very busy with high sided vehicles and lorries heading for the motorway and also general traffic who live in the surrounding area, who often stop at the adjacent Tesco store. There are no parking facilities and the outside of the property is on a Road with double yellow lines. The amount of people who would attend this facility causes great concern for the area, the main reasons would be the extra traffic build up, there is a Tesco opposite with a petrol station and convenience store which can be quite busy with traffic and customers, , the prayer facility, attendees, would add to the pollution, it is a built up area and would have an adverse effect on the people living behind on Wakefield Crescent and also on the bungalows lower down just off Wakefield Road, i am sure that this would bring the traffic to a standstill, and would cause queues of traffic on this main road, which would then have an adverse effect on Leeds Road as most people will divert up there. in my mind i can also visage more accidents, drivers will be impatient and with respect the "prayer people" attending the venue will be eager to use the facility and just park anywhere they could, it would not surprise me if they parked on the double yellow lines, causing upset to the neighbors and there privacy, as there will be parking in front of their houses causing boundary and access issues, and i am sure accidents around the facility especially on the main Road. There is also a park lower down and i can see that being full of cars parking whilst they go their prayers.. There is not doubt that this , if it is allowed to go ahead will be a great health and safety issue..</p> <p>Thank you...</p>
