| <p>The sheer volume of traffic that would be generated by this change of use would be unsustainable. There is no parking apart from maybe 2 spaces on the pavement directly in front of the building. There is a Tesco Express opposite and the medical centre very close by, which are both generating traffic. The residential area already has parking problems as Wakefield Road has parking restrictions in place. The building and its facilities would be used by people not living in the immediate vicinity thus causing problems for the residents who need access to their own properties. There would be extra traffic during prayer times (5 times a day) which may well impact on the children going to school using the crossing directly by the building.</p> |
