5 Morland Close WF13 4BN

In regards to the above application we are not happy with the proposed extension on these issues:

1st issue if they are going to use the same colour brickwork as their recent kitchen extension it is completely different to the old build and the other houses on the street and will seem very self imposing and unsightly.

2nd The proposed extension seems extensive and will be a monstrosity and will become double the size of the original property and again will not fit with the street scene,

3rd The proposed width would cause a blind spot for vehicles going and coming round the bend as already the height of her bushes causes an issue.

4th The size proposed would be very imposing from our front windows and will ultimately cut off natural light from our windows.

We feel that if they build a one storey on top of their existing garage and keeping it same size it would be far less imposing and blend in more with the rest of the houses in the street
