Subject: RE: Magma Ceramics, Low Road, Earlsheaton, Dewsbury 2020/90988

Hi Chris

Regardless of the date of the prior notification the requirements of condition 22 have not been complied with and the condition has not been discharged.

This application is to formalise changes to the approved scheme 2013/90497 including that the phase 3 Building 1 is not to be built and that the existing building has been demolished and a retaining wall has been retained and made good. The area is now to be used for parking.

To formalise changes to the approved scheme 2013/90497 details to show that the existing

retained wall which is referred to as
made good is outside the zone of influence of Middle Road are needed.

Regards

Mark
