Type of comment: An objection
<p>I am fully against this application as it total is against the historical fabric of the beautiful village and this must be maintained against all other pressure and be retained for future generations. If the objectionable comments are totally refuted by the planning advisors and the council members on the planning committee We would stress that a Section 106 Planning stipulation is applied/instigated as part of the approval process and that developers will be forced to invest in the fabric and sustainability of the village and they engage with local community throughout the whole process. In how the investment is used for the benefit of the WHOLE community</p>
