What is the application for?:	Outline application for erection of 6 apartments (within a Conservation Area)
Address of the site or building:	site adj, 13, Cuckoo Lane, Honley, Holmfirth, HD9 6AS
Postcode:	HD9 5JU

## User comments

Type of comment: An objection
<p>I am concerned about parking for these proposed properties, this is an area of the village where roads are narrow, Cuckoo Lane is one way, with sections of no paving and a key access to the infant school, travel to and from the development will be through these narrow streets. There is no parking associated to the application, and the capacity to absorb additional street parking is not there. My understanding is that new developments of this kind must include parking places. Access for building works will be equally limited, and risk factors for safety on a route used by young schoolchildren and parents - many with pushchairs as well - should be a major consideration. Also I note that a wall in a conservation area will need to be breached as the only access to the site.</p>
