There is one closed landfill within 250m of application address.

KC Ref 28 (WDL231) is a former quarry and lies approximately 52m away, it was infilled with 2500m³ of inert construction, demolition and excavation waste and developed for housing in 2016, no LFG figures are available. A small landfill site has been identified by Kompass for which I have no information, this lies approximately 40m away to the south.
