Hello,

We would like clarity on the plans at your earliest convenience. We have deep concerns about the impact to _____ and the wider environment.

What assurances can be given as regards:

Conservation of buildings and conservation of the natural environment?

The effect on the landscape and the character of an area?

Noise and general disturbance in what is otherwise a quiet and secluded area of Shelley?

The impact on traffic down Far Bank, and how access to the site will be gained?

Also what assurances can you give about how will his view be affected?

Will his privacy be compromised during the proposed building and if the buildings do happen?

How high are the dwellings and how much will this affect his view?

What assurances can you give us that the properties will be sympathetic to the other stone built houses?

As you also know with Covid this is already a challenging time.

_____ This is already a stressful time for him and us all, and his home is somewhere that he loves. The peace and tranquility is the main reason he bought the house, and we are now all concerned this will be compromised.

We look forward to your response.

Best wishes
