What is the application for?:	Erection of single storey extensions to side and rear
Address of the site or building:	26, Greenacre Drive, Upper Denby, Huddersfield, HD8 8UP
Postcode:	HD8 8UP

User comments

Type of comment: An objection
In my opinion the proposed side extension to this property is not viable. There is already a garage further down the drive which cannot be reached by a car as the drive is not wide enough. Building a garage in this space is also not going to be wide enough for a car let alone being able to open the car doors to get in or out of a vehicle. The space that the proposed garage is to be built on will be right onto the boundary of no 24 and will leave not enough room for the next door neighbour to open their car doors. This space is a very narrow as it is . My main objection is if no 24 has to park their vehicles on the street there will be less room, due to a narrow road and present on street parking. This will cause a danger to residents and prevent emergency vehicles, refuse lorries and school traffic from using the street safely. As it is at the moment there are always cars parked on the pavement causing pedestrians to walk in the road. We have a which we struggle to get through the parked traffic now so two more vehicles on the street will just add to the problems.
