User comments

Type of comment: An objection	
Dear Sir / Madame, I want to object to the conversion of the derelict garages * damaged by heavy plant coming up and down the lane (and potentially by additional traffic) * The only means of accessing this land is via a lane This development will result in an increase in air pollution, traffic noise and an increase in foot fall on the lane disturbing the peace. * Access plant and equipment and increase in traffic will damage the lane * It will affect the turning circle that is needed from the lane Planning permission for this build was not advertised clearly. Advertisements were displayed such that personnel assumed that the planning application was for the development that was already taking place in the adjacent field. Displayed applications have also not been read by local residents and myself as usual due to shielding, self isolation, lock down and other COVID 19 restrictions.
