

About the application

Application number: 2020/91215	
What is the application for?:	Outline application for erection of residential development
Address of the site or building:	Land at, Green Acres Close, Emley, Huddersfield, HD8 9RA
Postcode:	

User comments

Type of comment: An objection

Firstly I believe a full survey of vehicular movements needs to be carried out after the Caronavis Lockdown. Obviously this sort of survey could not be a fair representation until Lockdown is fully lifted. I will explain below why it is very important that a full survey is done on vehicular movements after Lockdown is fully lifted

It appears the access to the proposed development is via Wentworth Drive. The junction between Wentworth Drive and Upper Lane is already Extremely Hazadous it is on a corner where cars enter the village. On this junction there are lots of parked cars both at the bottom of Wentworth drive and opposite the junction on Upper Lane parking up all the way from the White horse pub. It is a blind junction for these reasons. On top of this there are 5 junctions within a very short space just as cars are entering the built up area from a faster stretch of road. It is dangerous and very difficult to pull out of this junction in a car or bicycle. It is even dangerous just driving past on Upper Lane. It is even more dangerous to cross as a pedestrian.

The Infrastructure in Emley is completely overstretched. Upper Lane the main road in Emley is down to single file with parked cars and has pot holes that can't be fixed. The level of traffic is already extremely hazardous here. (This needs to be looked into. It seems like an accident waiting to happen). Everyone in the village or moving into the village will most likely need a car because the bus's are very infrequent. The buses are also very time consuming and it takes a very long time to get to a town or hub by bus. There are very few bus routes and Emley is connected very few local villages or towns.

The school is way too busy already. The village is full of cars before and after school.

Currently it is almost impossible to get a GP appointment at Emley surgery without waiting a long time. Residents of the Village often have to drive 4 miles to see a doctor already. This situation could only be worse if planned development got the go ahead.

It is clear to me that to allow this amount of extra housing in the Village would clearly be irresponsible and dangerous.

Even without new houses the village already need new roads , new school with modern access, parking restrictions and car parks for most of the village and a greatly improved Doctors surgery.

I am also worried about the access restrictions this will cause to the millennium green. The Millenium Green has attracted some fantastic wildlife and is lovely place to visit in the village. I am worried if access is restricted to the green less people will use it and it will subsequently go into disrepair.
