What is the application for?:	Outline application for erection of residential development
Address of the site or building:	Land at, Green Acres Close, Emley, Huddersfield, HD8 9RA
Postcode:	

User comments

Type of comment: An objection
. This is a rural village with limited amenities for the population. The one shop/post office is small and could not cope with a large growth in population . There is only one first school in the village which is already full. Parking near the school is already hazardous and could not cope with a larger school population . Upper Lane is already a busy road as it is used by work traffic accessing Denby Dale Road at rush hour periods and throughout the day. Access from the proposed development on to Upper Lane would exacerbate this problem . The village's Millennium Green is an important feature of the village and is used well. The proposed development would significantly undermine the peaceful atmosphere of this area and access to it . The surrounding residential streets in close proximity to the proposed development have significant amounts of on street parking and limited or no pavements. Additional traffic in these areas would present concerning safety issues for road users and pedestrians; particularly those with prams and pushchairs and also older people and those with disabilities.
