What is the application for?:	Outline application for erection of residential development
Address of the site or building:	Land at, Green Acres Close, Emley, Huddersfield, HD8 9RA
Postcode:	

User comments

Type of comment: An objection
The village road system is poorly equipped to deal with traffic already - The only way to get to the outside world from any of the houses on the wentworth estate is via wentworth drive - there is extensive parking on the paths which forces drivers on the wrong side of the road towards oncoming traffic. Once at the junction again I would estimate there are cars parked opposite over 90% of the time so joining traffic flowing each way (including access towards M1) is dangerous especially when farmers are out in heavy machinery or when someone is trying to exit the cul-de-sac that runs up the side of the white horse public house. Please do not entertain the notion that people who live in Emley will not need a car. Emley is a primarily a rural area - we have a small shop, a pub and a hairdressers. However most households have at least one car - it is essential to get to any kind of supermarket or employment or receive medial attention. There is a GP outpost in the village mainly for the very elderly that is open for appointments for a limited number of hours - I drive 5-6 miles to see a GP. The millennium green is frequently used and treasured part of the village and the proposed development site is used extensively by dog walkers and people using the right of way to reach the green and other walking routes. I feel this application is a clear attempt use the covid-19 situation to further enrich the savile estate and housing developers to the detriment of residents.
