The site is within an area without notation on the Kirklees Local Plan proposals map. It is within a sustainable location and the redevelopment of the site would make use of a brownfield site in a built-up area. Chapter 11 of the NPPF promotes the effective use of land in meeting the need for homes whilst safeguarding and improving the environment. Paragraph 122 states that planning decisions should support development that makes efficient use of land, whilst continuing to contribute to an area's prevailing character and setting (including residential gardens). Although the Council can presently demonstrate a 5-year supply of available land for house building, we support the development of windfall sites and would give weight to the benefit of using suitable sites within existing settlements for homes. As such the principle of the redevelopment of the site is supported.

☐ Yes ☒ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

* 'owner' is a person with a freehold interest or leasehold interest with at least 7 years left to run. ** 'agricultural holding' has the meaning given by reference to the definition of 'agricultural tenant' in section 65(8) of the Act.
