Address of the site or building:	adj, 1A, Mount Pleasant Lane, Fenay Bridge, Huddersfield, HD8 0AT
Postcode:	HD8 0AT

User comments

Type of comment: An objection
I write to express concerns about the new proposed access request to Fenay Bridge Road. I have a vested interest as the proposed new access would be exactly opposite my house. This is an extremely busy road already and is often being used as a 'cut through' for many vehicles. Residents, with no off road parking, have no option but to park their cars in front of their properties and often I hear the screech of brakes as cars approach the bend (exactly where the access is being proposed) only to have to reverse backwards - this becomes a real issue at peak times, when its difficult to reverse because of several cars behind one another. I also have concerns about the visibility from the proposed access point. My daughter had a car vehicle collision just 12 months ago, 20 metres from the proposed new access, resulting in 2 cars being written off by the insurance companies. Children use the public cycle track, which is exactly next to the proposed new access. Just the other week I saw a young child run out into the road from the cycle track, before his parents could stop him. The other concern I have is that the headlights from the proposed access would shine directly in to my lounge, which is of great concern to my wellbeing. I am also disappointed that I was made aware of the proposed planning application by neighbours - there are no notices around the area and I didn't receive any correspondence about it from the council, even though my house is exactly opposite the proposed access point.
