

The development of 82 Raikes Lane would lead to the proposed dwelling wall abutting the property boundary and therefore my driveway, leaving the space cramped.

The two storey extension would block light to my driveway, as well as to both my front and back gardens through the day. I have a door on the side of

the house, the planned extension will block light coming through the window in the door.

The proposed balcony to the front of the house will be unacceptable as it will be overlooking my front garden so there will be no privacy.

Please can I have a response to this email so I can ensure it has been received.

Thank you
