Order 2015 - Schedule 2, Part 1, Class A.1 (g) Condition A.4**

**DELEGATED DECISION FOR DISCHARGE OF CONDITION A.4 -
NOTIFICATION OF A PROPOSED ENLARGEMENT TO DWELLINGHOUSE**

Reference no.	2020/HH/91735/W
Site Address	10, Dryden Way, Lindley, Huddersfield, HD3 3ZH
Description	The proposal is for erection of single storey rear extension. The extension projects 4.8m beyond the rear wall of the original dwellinghouse. The maximum height of the extension is 3m, the height of the eaves of the extension is 3m
Recommending Officer	Laura Yeadon

DECISION – PRIOR APPROVAL NOT REQUIRED

**I hereby authorise the approval of this application for the reasons set
out in the officer's report and recommendation annexed below in
respect of the above matter.**

Kevin Walton

AUTHORISED OFFICER

Date: 03-Aug-2020

This decision is based on the following plan(s):-

Plan Type	Reference	Version	Date Received
Block Plan	(20)003	Rev A	31/07/2020
Location Plan	-	-	19/06/2020

Development within a Coal Mining Area

DEVELOPMENT HIGH RISK AREA - INFORMATIVE NOTE

The proposed development lies within an area that has been defined by the Coal Authority as containing potential hazards arising from former coal mining activity. These hazards can include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and previous surface mining sites. Although such hazards are seldom readily visible, they can often be present and problems can occur in the future, particularly as a result of development taking place.

It is recommended that information outlining how the former mining activities affect the proposed development, along with any mitigation measures required (for example the need for gas protection measures within the foundations), be submitted alongside any subsequent application for Building Regulations approval (if relevant).

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant safety and engineering risks and exposes all parties to potential financial liabilities. As a general precautionary principle, the Coal Authority considers that the building over or within the influencing distance of a mine entry should wherever possible be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure that a suitable engineering design is developed and agreed with regulatory bodies which takes into account of all the relevant safety and environmental risk factors, including gas and mine-water. Your attention is drawn to the Coal Authority Policy in relation to new development and mine entries available at:

www.gov.uk/government/publications/building-on-or-within-the-influencing-distance-of-mine-entries

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Coal Authority Permit. Such activities could include site investigation boreholes, digging of foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain a Coal Authority Permit for such activities is trespass, with the potential for court action.

Property-specific summary information on past, current and future coal mining activity can be obtained from: www.groundstability.com or a similar service provider.

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848. Further information is available on the Coal Authority website at: www.gov.uk/government/organisations/the-coal-authority

OFFICER RECOMMENDATION

DISCHARGE OF CONDITION A.4 , SCHEDULE 2, PART 1, CLASS A GENERAL PERMITTED DEVELOPMENT ORDER

1. Procedural Matters

Prior notifications for the erection of single storey rear extensions to dwellings are considered against the requirements as set out by the Town and Country Planning (General Permitted Development)(England) Order 2015 (as amended) Schedule 2, Part 1, Class A, condition A.4.

Proposals pursuant to Class A are permitted subject to limitations set out in paragraph A.1 and in the case of Class A.1 (g) subject to the discharge of condition A.4. This proposal relates to development pursuant to Class A where condition A.4 is engaged and for the purposes of this assessment only the limitations for Class A.1 (g) and requirements condition A.4 are considered. Other limitations within Class A are not considered other than where, in the opinion of the Local Planning Authority, the development does not comply with the limitations within Class A of the Order. Ultimately the responsibility to ensure the development is carried out in full accordance with any planning permission rests with the applicant or property owner/occupier.

Limitations for Class A.1(g) Development

Is the site within a Conservation Area, Article 4 or SSI area?	No
Is any part of the proposal clearly outside the curtilage of the dwellinghouse?	No

If the house is detached and from the information submitted, does the extension extend more than 8 metres from the rear of the original dwellinghouse?	N/A
If the house is not detached and from the information submitted, does the extension extend more than 6 metres from the rear of the original dwellinghouse?	No
Does the proposal exceed 4 metres in height?	No
Have permitted development rights been removed from the property?	No

Condition A.4

As part of the notification procedure, the Local Planning Authority notify owners or occupiers of adjacent premises of the proposed development by serving notice and allowing 21 days for objections to be made. The Local Authority shall take into account any representations made as a result of the notice given.

Consultation start date : 19th June 2020

Consultation end date : 10th July 2020

1. Objections

No objections received.

2. Assessment

Not required as no objections received

3. Recommendation

Prior notification not required

Report Dated:

24 th July 2020
