Type of comment: An objection
The main concern is with the access to the site. There is no way the traffic should be going passed Woodlands school. Pollution is already not great been near the m606 and Bradford road, extra HGVs going right next to the school + 180 cars is just slowly killing children including my own. Also the extra traffic is an accident waiting to happen with all the kids that walk to school And the traffic getting on too the chain bar roundabout from Bradford road is already very bad so iT CAN NOT take anymore. There is NO reason why you can't have the access come off the south bound M606 which would at least show you care about poeple that live in oakenshaw/woodlands and their kids. Also the noise HGV create they are the loudest thing coming up and down bradford/Cleckheaton road on a night. Can wake me up when there bouncing on the road because they're speeded down the road. So we don't want anymore. So its a SAFTEY ISSUE AIR POLLUTION AND NOISE POLLUTION. more than enough to stop this bad idea for access.
