

## About the application

Application number: 2020/61/91807/E	
What is the application for?:	Reserved matters application pursuant to outline permission no. 2016/92298 for r
Address of the site or building:	Former North Bierley Waste Water Treatment Works, Oakenshaw, BD12 7ET
Postcode:	

## User comments

Type of comment: An objection
<p>I object to this planning application on the basis that the sole link to the proposed development will be via a mini roundabout opposite Woodlands School. Not only is this a danger to parents and children from traffic to and from this site but also to the elderly residents in the bungalows at the bottoms of Cliff Hollins Lane. The air pollution from this additional traffic will be horrific for all, not to mention the noise at all hours of the day and night. I seriously cannot believe that Bradford Council have approved a car park for the school to be built on land which regularly floods from the adjoining beck during heavy rains. During the rush hours the junction of Bradford Road and Mill Carr Hill is heavily congested and by placing a mini roundabout opposite the school will lead to a further back up of traffic in both directions at the junction of Bradford Road and Mill Carr Hill which in turn will be a harassment to the residents in the village. In the past when there has been an accident on the M606, or on, or near Junction 26 of the M62, both Cliff Hollins Lane and Mill Carr Hill have been inundated with traffic backing up as far as Marquis Avenue awaiting to get out of the village onto Bradford Road. If the development goes ahead in its present form the roads will become even more of a bottleneck.</p> <p>There is a simple alternative and that is to put in a new link road to the proposed site via the A58 from either Leeds Road, crossing over the M62 or via a flyover from the A58 westbound past the golf club. The current proposals are a danger to the residents of Woodlands, the teachers and pupils at the school and the parents who deliver and collect their children from the school both by air pollution and heavy traffic. I would therefore request that my views are taken into consideration together with the safety of our residents.</p> <p>Regards,</p>
