Dear Sir,

Comments:

There is a serious lack of on-site car parking.
It's unlikely that users will go to the trouble of parking off-street so will park on Bank Gate, especially opposite and around its acute junction with Netherend Road. The two spaces at Manor fireplaces are neither here nor there, particularly when the "teams" referred to by the applicant would use the facility. Teams generally do not arrive on foot nor by public transport but individually in cars. If these are children, each participant is likely to be dropped off and collected by a parent, thus doubling traffic and parking needs. Bank Gate is a busy, steep road which whilst relatively wide will not support large scale on-street parking without causing problems for through traffic.
