Dear Sirs

I have no objection to the above plans. However I note that you are providing parking spaces for the new development.

Where are the parking spaces for the existing houses on Northgate?

Currently the Permit Area has been extended along all of Northgate because of the reduced number of spaces caused by the work to the structure of the new Coop at the Rose and Crown.

Can you please confirm that the current extension will remain in place once the work has been completed.

A reply would be appreciated.
