Type of comment: An objection
The demolition of this drystone wall will spoil the appearance and historical character of a street in what is supposed to be a conservation area. It is important we take great care in preserving the original features of our beautiful village and surrounding areas. To demolish the wall for the off-road parking of one vehicle would create more issues than it would resolve. It would further impact the lack of space to park, manoeuvre and negotiate a very narrow street with no pavements, Due to the limitations of free space on the street, local residents, including those living in within the boundaries of the walled area, on the evening and day of collection put their wheelie bins next to this party wall. To remove this convenience would mean there would be no place for the bins to be left so at least one space used for parking would have to be sacrificed in order to accommodate this planning application.
