In my opinion this is a great opportunity to create much needed off-road parking with very little disruption to the existing area.. By removing a small section of wall it will open up the courtyard area for the residents and provide much needed extra off street parking. The section to be removed is not an on street parking area, so no parking spaces will be lost with this application. This project will not impact on visual appearance of Townhead, as all the existing material are going to be reused. Please support this application.
