Postcode:	BD17 7SW

User comments

Type of comment: An objection
<p>Along with most of the long established residents of Plane Street, I do not consider that this type of development is suitable for this area. We have always enjoyed a quiet, village type neighbourhood and value this along with our privacy both of which we would lose if this development goes ahead.</p> <p>The proposed type of buildings are also totally out of character with the surrounding, private properties.</p> <p>This site has always been considered structurally unstable which also greatly concerns local residents and needs to be considered for any type of development both during construction and for long term safety.</p> <p>I also have concerns regarding the additional demand on local health services, schools etc which are under considerable strain coping with the numbers of people they already serve.</p> <p>Traffic, parking are also things to consider which we already have issues with as our street seems to be the free parking space of choice for the University.</p> <p>Although things have to progress I do feel a rethink is in order taking into account safety and the concerns of all local residents.</p> <p>We were promised a full public consultation meeting which did not materialise.</p>
