<p>I am a regular attendee of the local church St Marys at Wilshaw, the property is opposite the church. I have seen the residents on many occasions whilst they have been gardening. I feel they have improved the area considerably with the work they have done, especially in the garden. Many of my friends that also attend the church have also commented on how they have enjoyed watching the progress made to the property over recent years.</p> <p>I am also now working from home due to the pandemic as many other Kirklees residents will be. The proposal for an office in these times supporting home working, along with work life balance, environmental benefits along with reducing the carbon footprint within Kirklees are all benefits of working from home to the Individuals and of the people that live locally within Kirklees. I wholeheartedly support this application and if I had the space would also be applying to build an office in my garden.</p>
