Dear Sirs

Application 2020/92284/W
33 Wilshaw Road Wilshaw HD9 4DZ
Erection of single storey outbuilding to provide home office / studio (in a conservation area)

The current owners put in for various permissions but when passed their build did not match what was granted. You have said that parts of their build are ok under 'permitted development'

I believe that the current application is being made by someone wanting to buy the property. If passed it would add further harm to the area
I would I am no longer
enjoy as this has been obscured by the large

Yours faithfully
