Subject: Planning Application 2020/92307,

Dear Ms Mansell

I would like to object to the proposed Planning Application 2020/92307.

The village of Lepton is already over populated, the roads at capacity and the infrastructure not able to cope with additional residential houses. The junction of penistone road and rowley lane is already dangerous and takes considerable time to pull out onto the main road. Additional vehicles will make this further difficult. Rowley lane is already a potential accident waiting happen with vehicles already breaking the speed limiting and dangerous driving up and down which will no doubt increase with more houses.

I strongly suppose this development plans

Yours sincerely
