<p>There are many genuine and fundamental issues linked to this proposed developments, however one that I had not previously considered is that of the impact to the lower end of Woodsome Road. This road is one of the main routes up to King James' School. There could easily be an additional 1000 children who will require schooling. If capacity permits they would at some point need to travel to King James School. There is a very small single file bridge over Fenay Beck at the bottom of Woodsome Drive. There are already problems here at peak times as its a blind corner and you have to proceed with extreme caution. This is going to make this route even more dangerous.</p>
