I have no objections to the Certificate of Lawfulness if the proposed new use is operated generally in accordance with the applicant's description of the use in particular:-

- The proposed use of premises is considered ancillary to the enjoyment of the dwellinghouse,
- based the use of the domestic kitchen within the premises for preparation and cooking of meals for delivery,
- no more than 10 dispatches of meals by vehicle per day,
- dispatches of meals leaving the premises only between 09:00 and 20:30 hours.
